CARRIAGE FEES.

For the carriage of a single passenger with one trunk and carpet bag, hat box or other similar article, from any railroad depot, steamboat landing, or other point or place within said limits, to any railroad depot, steamboat landing, or other point or place within said limits, fifty cents.

For the carriage of two passengers, with the amount of baggage stated above for each, from the same railroad depot, steamboat landing, or other point or place, to the same point, place or destination, within said city limits at the same time, seventy-five cents, and for each additional passenger and his baggage, more than two, twenty-five cents. For each additional trunk, hat box or carpet bag, ten cents.

For carrying a child over four and under ten years of age, one-half the above rates.

For a carriage to and from a party or a wedding within the city limits, three dollars.

For a carriage to and from a funeral, three dollars.

And for the use of a hackney coach or equivalent vehicle, and two horses, two dollars per hour, and at that rate for fractions of an hour.

No owner or driver of any baggage wagon, or express wagon, or other vehicle for the carriage of baggage or goods of any kind from place to place in said city, shall charge, demand, or in any way receive more than the following rates or prices, viz:

For the carriage of any trunk, chest, or other

article of baggage, or any box, bundle or package of goods of any kind not exceeding sixty pounds in weight, from any point or place within the city limits, to any point or place within said limits, twenty-five cents, and above that weight, two cents for every additional ten pounds or fraction thereof.

For each additional trunk, chest, box, bundle, package, or other article, ten cents.

For the use of an express wagon or baggage wagon, for one entire day, five dollars, and at that rate for half a day.

For the use of the same by the hour for any period of time less than half a day, fifty cents per hour, and at that rate for fractions of an hour.

And for moving a chest of tools, from any point or place within said city limits, to any point or place within said limits, fifty cents.

No person who shall employ any licensed vehicle in said city to carry any person or property, shall refuse to pay the just and established fare therefor, or the fare previously agreed to be paid therefor, under a penalty of five dollars for every such offense.

Every such driver shall take the baggage or other goods of the person for whom he may be employed, from the place in which it may be deposited and deliver the same upon the steamboat or to the proper baggage master, or carry the same into any part of the basement, first or second story, of the building to which destined, as the case may be, without extra charge.

Printing Office,

GLEBE BUILDING,

Corner Church and Chapel Streets.

PRINTING OF ALL KINDS

Done Neatly and Promptly.

INTRODUCTORY.

During the year that has elapsed since the issue of the last Directory, much has been accomplished that has added to the material wealth, prosperity and beauty of our city, and this, notwithstanding the continued prevalence, though to a lesser extent than in the two preceding years, of what are familiarly termed dull times. A spirit of enterprise continues to characterize our public men. Our city, renowned for its beauty, grows more attractive. Marks of improvement are everywhere apparent. Our streets, which have been vastly improved in the last few years, have been still further improved. Many new ones have been laid out at call of public convenience and necessity. Our parks and fine avenues have been still further beautified. The subject of remodeling and ornamenting our splendid public square is now under agitation, and the work is likely to be accomplished. Radical improvements have been made in the city, always healthful, in a hygienic point of view. Additional sewerage has been afforded. The credit of the city and town continues at a high standard. A retrospective glance affords the following interesting summary :

The city laid, during the year ending Jan. 1st, as appears by the message of the Mayor, 3,176 feet of Telford pavement, making, with what was already laid, a fraction over 11½ miles of this standard street paving. During the same period, two and three-fourths miles of streets were graded. In the sewerage line, there were three and a half miles laid, the pipe ranging from 12 to 48 inches internal diameter. In fire department matters, there has been an increase in the force of 15 men, owing to the addition of the new steamer No. 8, making a total of 133 officers and men. A new hook and ladder truck has been added. The engine house on Park street, corner of Elm, has been enlarged and supplied with a tower for hose drying purposes and ornamentation. A new steamer, which takes the place of old No. 1, has arrived and will soon be in use. The new steamer house on Edwards street has now a bell tower in connection with it. The police department carries a force of about 80 men and three officers, as it has done of late years. Our fine City Hall has been internally improved and embellished, and a handsome new hall built in it for the Aldermanic Board.

An important work has been done in the diverting of the offensive and unhealthy waters of the West creek and its west branch into the sewers and thence into the harbor. Another important work, long talked of, is now

being consummated in the opening of a new street, about sixty feet wide, right across an old and thickly settled part of the city, from Broad to Water street, and over the former low grounds which were once the bed of the creek. A sewer is ordered between the same points along the line of the old creek. The opening of the new street involves the driving of hundreds of spiles and the removal of a large brick building, a leather factory, and a number of small dwellings.

The city will soon be connected with East Haven by a new bridge over the Quinnipiack, 450 feet in length from face to face of abutments, and costing about \$115,000 for substructure and superstructure; the former costing \$66,000, John Beattie, the quarry owner, contractor, and the latter \$49,000, H. C. Parker & Co., Boston, contractors. It has two abutments and three piers of solid masonry resting on the solid rock-bed of the river, and will have two fixed spans and a two span pivot draw, and will be paved with wooden blocks chemically prepared to resist decay.

The commercial interests of the port prosper and promise to increase in importance largely. The total value of merchandize entering at this port and paying duties during the last fifteen years, was \$15,000,000. The amount of customs collected last year was \$369,905, an increase of \$15,846 over the preceding year, and of \$184,000 over the year 1864. Luddington's rocks, which lie at the mouth of the harbor, out of the direct path of navigation, to be sure, but which have caused not a little damage in the way of marine disasters in the course of years, have been drilled and blown off by government direction until they are no longer an obstruction.

The foundation for a new lighthouse has been laid on South West Ledge, and the superstructure will go up at an early day. The harbor channel is to be deepened and widened so as to permit the use of the port by vessels of the deepest draught and ocean steamers. The over-crowding of New York wharves and the high marine charges there, will send much additional commerce here, with these improvements consummated. An important new wharf to cost about \$75,000 is about to be constructed adjoining Tomlinson's bridge, for a great coal wharf.

The new College Chapel, spoken of in our last, is nearly finished, and is one of the most beautiful buildings, both in its interior and exterior, in the State. The stately walls of the Peabody Museum have risen to nearly the prescribed height, and already is an imposing building, though it is but one wing of what the Museum is ultimately to be. Curiosities and relics of past ages enough illustrative of scientific facts, research and discovery, are now collected and on storage to bring the entire wing into immediate use. The collection is unrivalled on this hemisphere, perhaps in the world. The dedication of the Lowell Mason Library, of Yale, a gift from the family of the late Lowell Mason, took place last month. A massive red sand-

stone fence is being erected around the north east portion of the Academical grounds. The Yale Navy has now a very attractive new boat house, Swiss in appearance, costing \$15,500, "possessing all the modern improvements," and is preparing for the contest at Saratoga this year with all energy.

The County Jail, built twenty years ago, is being much enlarged at an expense of about \$50,000, rascality having increased proportionally with the increase of the population.

The New Depot, built by the New York, New Haven and Hartford Railroad Company, an imposing edifice of pressed brick, costing, with extensive land improvements about it, a quarter of a million dollars, was first thrown open for public use on the 24th of May. It is a credit to the city and to the company, whose capital is \$15,500,000. It consists of a main building, flanked on each side by a wing; its length is about the length of a block, it is four stories high, and crowned with a Mansard roof. About two-thirds of the space on the main floor is devoted to the passenger room, which is equal in size, height, and elegance of wood work and adornment, to the passenger hall in the Grand Central Depot, New York city. In the center, are restaurant accommodations of a superior order, connected with ovens and ranges and a kitchen below. The culinary arrangements are thus ample, and it is intended that something beside pastry and cake will be afforded the hungry traveler. The passenger hall is provided with a telegraph office, a news and book stand, a package office, and other conveniences, and all the work is of elegant character. The remainder of the room on the main floor is occupied by the baggage men, and Adams Express Company, each having a commodious room, the one flanking the passenger hall on the right, and the other on the left. The floor above is devoted to offices for the officers, assistant superintendents, the various conductors of the several divisions of the road, and men holding responsible positions connected with the mechanical and construction departments. The offices are in two rows running the whole length of the building, and divided by an ample hallway. On the third floor, are similar rows of offices. All are of ample dimensions and elegant appearance. The through trains arrive and depart on the side fronting toward the Harbor and Sound, commanding an unobstructed view of the same. Passengers, while standing on the platform, are shielded from the rain and protected from the sun for the whole length of the depot, by an ample covering of wood work, which presents a handsome architectural appearance. The Air Line, New Haven and Northampton trains arrive at the east end of the depot, as do the local Shore Line trains, and the new short train. The latter picks up and lands passengers at three or four places in the town, to accommodate their getting to and from the principal trains. A broad concrete walk has

been laid along the whole town side of the depot, and therefrom plank walks have been laid across the new made ground to the pavements of Meadow and State streets. It will be remembered, that the land where now is the depot, with all its busy life concentrated there, has in the last year or two been reclaimed or redeemed from mud flats, which have been, even in recent years, considered almost worthless. The spot comprises many acres, and thousands of car loads of dirt have been required in the work. The city has laid out a net-work of new streets and continuations of existing ones over this sandy area. It is one of the most important changes and improvements ever made in the city. A striking advance in real estate will probably be witnessed in this quarter before many years. There has already been a marked rise. The railroad company now has its splendid depot and its extensive repair shops, and locomotive and car shops in the same neighborhood, a neighborhood where there is ample room for expansion.

A new and elegant hotel, the Elliott House, has been added in the year past, and is already meeting with such a patronage from city guests and the traveling public, as to fill it daily to its utmost capacity. The gentlemen who erected it, Messrs. Leonard Winship and Samuel E. Barney, are proposing its enlargement at an early day. It has between sixty and seventy rooms, all fitted, carpeted, furnished and adorned in such a style as to render it one of the most inviting hotels in New England. It is unnecessary to add that it is a credit to the city, a new public improvement worthy of notice. The cuisine department receives high praise from all patrons, and its management, which is the hands of A. F. Saunders, Esq., is highly commended. Few hotels have met with such immediate and gratifying success as has the Elliott House.

An improvement in the past year, indicative of the popular interest regarding physical culture, is the establishment of a Gymnasium in Exchange Building, under the auspices of a fine class of young business men. It was opened in November last, and already numbers 125 members, including some of the most prominent young mercantile, banking, and professional men in the city. Mr. Henry L. Hill is president.

The National College of Business, C. R. Wells, president, and H. L. Hill, secretary, has become one of the most successful business colleges in the country, and is a little busy world in itself during the study hours. The number of students in attendance last season reached the high figure of two hundred and fifty, and nearly every state and territory of the country was represented in their ranks; also, the West Indies and Japan. The course of study has been enlarged to a wider scope, and the corps of instructors increased, while the accommodations of the college, in the elegant and imposing American National Life and Trust Company's building, have been

enlarged and beautified. The Business College has become an institution of importance and value to the city, as a home institution, and the enterprise with which it is conducted attracts much attention and praise.

During the year a commodious chapel has been erected by the Baptists of Fair Haven, Rev. Mr. Whiting, pastor, on East Grand street, at a cost of \$16,000, and was dedicated Dec. 29th. Besides an ample audience room, it has two reception rooms and a parlor for the ladies.

Since December last, the First Baptist Church Society, on Wooster Place, have erected a new church edifice to replace their former church edifice destroyed by fire last winter. Only the walls were left. The enterprise speaks for itself. The new church was dedicated in May, when also its new pastor, Rev. T. Harwood Pattison, of England, was installed, Rev. Dr. Armitage, pastor of the Fifth Avenue Baptist Church of New York city, Rev. Dr. Phelps, former pastor, now of Providence, R. I., Rev. Drs. Turnbull and Crane, of Hartford, Rev. Dr. Bacon and Rev. Mr. Meserve, of this city, and other clergymen, assisting. The new structure cost about \$36,000, exclusive of the organ, a new one, costing about \$5,600. The internal appearance is very tasteful and attractive. The church starts thus anew in its career, nearly free from debt. It has a Chapel in the rear, in which are a large lecture room, two fine parlors for the ladies, the pastor's study, a kitchen, with modern arrangements for culinary purposes.

An important event in the Catholic community during the year, was the dedication of the new church of St. Mary's congregation on Hillhouse Avenue, one of the largest and most costly Roman Catholic churches in New England. It is built of rock stone, facing on Hillhouse avenue, the finest avenue in the city, and has its rear walls on the next street below. It is lighted through stained glass windows, and is elaborately frescoed and illuminated. Bishop Lynch, of South Carolina, and Rev. Dr. McGlynn, pastor of the church of St. Stephen, New York city, officiated at the dedication, assisted by a large number of the Catholic clergy of the State. The cost of the edifice is in the vicinity of \$175,000. St. Elizabeth's Convent, a brick structure costing over \$30,000, a boarding and day school and residence of Sisters of Mercy, with chapel, and reception rooms, has been opened since our last.

The Connecticut General Hospital Society, in addition to having erected the elegant and extensive buildings spoken of in our last, is building a laundry, a building of brick, costing about \$6,000; also, one or two other smaller buildings for the use of cases where isolation from the general wards is necessary.

The Sarsfield and City Guards have opened, fitted up, and dedicated an

Armory in Todd's Building. It is one of the largest and pleasantest in the State.

Private and manufacturing enterprise have done much in the past year. The vast rubber concern has enlarged its borders and increased its facilities, and the extensive Clock Manufactory is erecting a new building for store house purposes. The Hooker Carriage Manufactory has doubled its steam power. The Judson Brothers are erecting a large packing house near ex-Lieut. Governor Winchester's mammoth armory and cartridge manufactory. This packing house will be one of the largest buildings under one roof in the State, 260x130 feet, and will reach two stories, or thirty feet under ground and two above. It is necessitated by the immense business—in meats and provisions—done by the firm here and in the West.

Certainly one of the most noticeable and striking events of the past year which came under public notice, was the destruction by fire of the works of the New Haven Wheel Company, which resulted in the total loss of nearly all their minor buildings, and seriously damaging the entire upper portion of their main building; and certainly one of the most enterprising events in the past year was the replacing of the burned buildings, with others of a superior character, and the reconstruction of the main structure together with the inclosure of the premises with a massive wall of brick, all within the space of a few months. The loss by the fire was in the neighborhood of \$200,000. The new buildings took an immense quantity of brick and cost a large sum, and the Wheel Company, Col. E. E. Bradley, president, and with Mayor Lewis, a prominent director, are sending wheels of all sizes all over the Union again.

The enterprising mercantile and manufacturing house of E. S. Wheeler & Co. has erected a handsome building on Crown street, with pressed brick front, and taking in all 300,000 brick, in the lower part of which they have elegant office accommodations. Massena Clark, one of New Haven's wealthiest men, is giving his building on Church street; next the Connecticut Savings Bank building, a new front of pressed brick and handsome stone trimmings, and raises the building an additional story; also, entirely remodelling and greatly improving the interior, converting all the room upon the second and third floors into elegant suites of offices, and single offices, while the store fronts have been greatly improved. The entire upper floor will be devoted to an elegant society hall. The total expense will be about \$25,000. On the opposite side of the way, on the corner of Church and Center streets, H. W. Benedict, one of the most prominent and wealthy coal dealers in the State, is erecting, upon land leased for sixty years from Trinity Church, what is to be one of the most prominent blocks on Church street, four stories high, and to contain eight stores, three on Church and five on Center street, beside

many offices, manufacturing rooms, and a public hall. The front will be of pressed brick, handsomely trimmed with stone.

A marked improvement in the business part of the city is the widening of Union street below the old depot, and the erection of new brick blocks, of plain style, upon the widened street, east side, by George H. Brown, Capt. John Miller and John Macheleidt; Mr. Brown's is on the corner of Wooster street, being four stories high and containing two roomy stores; Mr. Macheleidt's being similar in size and store accommodations, and Capt. Miller's being four stories high and having four stores. Mr. E. Budington's building, on the corner below, has been improved, and the opposite corner also. Mr. Charles Katsch has erected a four story brick block, having four stores on George street, near Meadow. Mr. John Kennedy has quite a handsome block on Broadway, near the junction of Dixwell avenue; Mr. George W. Osborn a neat block, containing two stores, on Court street, next below the old Temple; Mr. Frederick Kutscher, a large four story brick building, containing four stores, on State street above Pine; and Mr. Thomas Bright is erecting a large block on Elm street, corner of Park, to contain four stores. Mr. William J. Atwater has erected a neat block, with two stores on State street, above Humphrey. Messrs. Osterweis & Oppenheimer have purchased the Odeon Building on Church street, and converted the upper floors into use for their extensive cigar manufacturing business, and their force of about sixty-five men and women are now at work there. This enterprising firm manufactured two million and a half cigars last year, and some years have turned out three millions.

In new residences, considerable has been and is being done, though owing to the times, building has been exceedingly backward. Prof. Eaton, of Yale, has erected a fine new residence on Prospect street; and up above, on the same street, Dr. Farnam and Joseph N. Whittelsey have built quite costly residences. Mr. Wurts is erecting a house which will probably cost \$40,000, on Whitney avenue, next to that of George H. Watrous, Esq. Mr. Julius P. Searle has built a large Swiss style residence on West Chapel street, at Norton; Mr. Ackerman, a nice house on Sherman Avenue; Mr. William A. Beers and Samuel J. Hoggson, each a block on York street, lower portion, very tasteful in appearance. Mr. Pinney, the builder, has begun a handsome residence on the corner of York and Crown streets, adjoining a tasteful new residence just erected by Mr. Rufus G. Russell, the architect. Mr. E. Hayes Trowbridge has begun the erection of what is to be one of the most beautiful residences in the city, on Temple street, opposite the residence of Ezekiel Trowbridge, Esq. Ex-Lieut. Gov. Tyler has taken steps for the erection of a handsome double block, opposite his residence in College street. Mrs. G. Frank Bradley is erecting a handsome

brick dwelling on Wall street. In every part of the city also, houses of less cost have been erected.

An important improvement of the Post Office and Custom House building is about to be inaugurated, plans for the same by the Government architect being completed, and it is safe to predicate, from an inspection of them, that they provide for such changes and improvements as will make our Post Office a credit to a city of 60,000. The work will occupy about five months and involves the removal of the Post Office to other quarters temporarily.

The population of the city remains substantially as it was in 1874. The causes for this we have already indicated on another page.

We present the following figures, made from actual count. Additions of individuals and firms, 3,515. Erasures 3,469. Changes of address, 3,507—being greater than those of any previous year. Total number of changes, 10,541. Total of changes in 1874, 9,780.

We have made some important changes in the City Map. These will be so obvious that comment is unnecessary.

NEW HAVEN STREET AND AVENUE DIRECTORY.

EXPLANATION.

It will be noticed that in this Street Directory the names of the streets are set down in alphabetical order, giving the course which they run, according, as near as possible, to the points of the compass, and enumerating all streets which cross the same in the order in which they occur.

ABBREVIATIONS.—N. for North; N. E. for North-east; N. W. for North-west; S. for South; S. E. for South-east; S. W. for South-west; E. for East; W. for West.

NEW HAVEN AND ITS ENVIRONS.

Yale College.

The noblest monument to the wisdom of the fathers is found in the provision made among us for education. Yale College ranks third in age, and first in the number of undergraduate members, among the multitude of colleges which public policy or private munificence has spread over the country.

The college grounds occupy one-eighteenth part of the original town plot of New Haven, including, quite accidentally, the birth place of Elihu Yale, from whom the College has its name. He was, however, in no sense the founder of the College; that honor belongs to the Congregational clergy of the State, who subsequently recognized the liberality of Gov. Yale by bestowing upon their institution his name. The first college building was of wood, and stood near the corner of Chapel and College streets. The present buildings are seventeen in number, and were erected as follows: South College was begun in 1793; the old Chapel, now the Athenæum, next north, in 1761; South Middle in 1750; the Lyceum and North Middle in 1803; the Chapel in 1824; the North College in 1822, and Divinity College in 1835. This completes the list of buildings on College street. Those in the rear of the Colleges proper were erected as follows: The old Dining Hall, now the Laboratory, was built in 1782; the new Dining Hall, now used as a Lecture Room below, and for a Mineralogical and Geological Cabinet above, in 1819; the Library in 1842; the Trumbull Gallery in 1831; Alumni Hall in 1852; the Fine Arts Buildings in 1865-66; the new Theological Building in 1868-9; Farnam Hall in 1869-70; Durfee Hall in 1870-1, and the Chapel of the Theological Department in 1871.

The College provides public commons for a part of the students; most of them, however, taking their meals in boarding houses, or with private families. The change in the old custom, which required all students to board in commons, which was made several years since, has proved to be a wise one.

The new Theological Buildings are beautiful and imposing structures, on the corner of College and Elm streets, and opposite the College grounds proper.

The Scroll and Key Society have a very attractive Society Hall, on the corner of College and Wall streets, and the Psi Upsilon Society has a new building on High street, a few rods to the north of Elm.

The new College Building on College street bears the name of FARNAM

HALL, in honor of Mr. Henry Farnam, of this city, who generously furnished the funds. At right angles with this, on Elm street, another large College building has been constructed of stone, at a cost of more than a hundred thousand dollars. It is the gift to the College of Mr. Durfee, of Fall River, Mass., and appropriately bears the name of DUFEE HALL. Both of these structures are devoted to apartments for students, and greatly increase the accommodations of the College. They are located in accordance with the plan on which the buildings are hereafter to be erected, of inclosing a large hollow square, like the College buildings of the Universities of Cambridge and Oxford, in England.

The objects in and about the College, which usually attract the attention of strangers, are the following:

YALE SCHOOL OF THE FINE ARTS.—This institution was founded in 1864, through the munificence of our late fellow citizen, Augustus R. Street, Esq., who in that year proposed to the Corporation of Yale College, to erect, at his sole expense, as a gift to the College, an appropriate building for a school of the fine arts. The building was began in the autumn of 1864, and completed in 1867,—a great ornament to our city, and in every respect commodiously arranged for its purpose. It provides for the collection and exhibition of works of art, such as paintings, sculptures, engravings, and the like; for instruction in the principles and theory of art; and for the domestication, in studies under its roof, of distinguished artists who may be invited to establish themselves there, for the sake of their inspiring influence. The Jarvis collection of paintings has been permanently added to the institution, with many other valuable works of art, and the school promises to be one fully justifying the munificence of its founder.

The organization and conducting of the school was committed by the Corporation of Yale College, at its meeting in the summer of 1865, on Mr. Street's suggestion, to the President of the College, ex-officio; with Mr. Daniel Huntington, of New York, President of the National Academy of Design; Professors E. E. Salisbury and Noah Porter, of New Haven, and Mr. Donald G. Mitchell, the well-known "Farmer of Edgewood," as an Art Council, of which one member is to retire each year, by lot, his place to be supplied by some other person chosen by the Corporation, unless he is, as he may be, re-elected. The Council have successfully attended to the duties assigned them, and the school has been inaugurated under the most favorable auspices. Prof. John F. Wier, a gentleman of rare culture and taste, and an artist of high merit, has the principal chair of instruction in the institution, and is devoting his time assiduously to the duties of his position. His introductory lecture on art and art instruction was a production of very superior merit, and fully established the reputation of its author as a devoted and successful student of Art.

It is hoped that our own citizens will be forward to assist in endowing the institution with all needful permanent funds, for chairs of instruction, the purchase of works of art, and the necessary apparatus for art instruction, so that it may yield to themselves and others, in full measure, the benefits which such an establishment is fitted to confer, in the refinement of public taste, the cultivation of a love of true beauty, and that intellectual and moral elevation which naturally associates itself with the study of the fine arts, when properly directed. The founder wished that the institution should be identified with the City where all his home and family attachments were centered; and the interests of citizens of New Haven will, accordingly, be carefully considered in all its arrangements.

GRADUATES' HALL.—The lower story of this building is used for the examination of the undergraduates and of candidates for admission to College. The College dinners are also given here. The very elegant rooms above, are occupied by the two literary societies, the Linonian and the Brothers in Unity. The portraits on the wall of the Examination Hall, are those of gentlemen connected with the history of the College, either as benefactors or instructors.

THE LIBRARY.—The collection of books in the Library building is about 88,000 volumes. Of late years much attention has been paid by the College authorities to the increase of the library, but the limited funds at their disposal, will for many years forbid anything like completeness in almost all its departments. The collection of books in the two wings of the library building, belong to the literary societies of the College.

THE MINERALOGICAL AND GEOLOGICAL CABINET of the College is regarded as one of the finest Collections now in existence. At the beginning of this century, all the minerals belonging to the College were taken by the late Prof. Silliman in a small candle box to Philadelphia, to be designated and classified. A few years later the collection was increased by such additions as were gathered personally by Prof. Silliman, in England and Scotland. In 1807 the College purchased, for a thousand dollars, a cabinet of about two thousand specimens, which had been procured in London by Mr. Benjamin D. Perkins. In 1800, a portion of the valuable collection made in Europe by Col. Gibbs, was deposited here for exhibition, and two years later the remainder of his cabinet was added to it. In 1825 the College became the owner of these minerals, at the cost of \$25,000, a sum greatly below their intrinsic worth. The minerals procured from Col. Gibbs, were chiefly made up from these private collections,—that purchased in Switzerland, from Count Razamousky, a Russian gentleman who had devoted many years at Lausanne, to mineralogical pursuits,—that made in France, by M. Gigot d'Osey, one of the farmers-generals under Louis XVI, who spent forty years in its

formation, and was finally guillotined,—and that of the Count de Bournon, which consisted mostly of English Minerals, and of gems from the East Indies, the latter of which were derived chiefly from the duplicates of the celebrated Grenville collection, afterwards bought by the British Museum. Very considerable additions have since been made to the Cabinet and the collection is now every way creditable to the College.

THE SHEFFIELD SCIENTIFIC SCHOOL.—The building occupied by the Scientific Department of Yale College, stands at the head of College street, two blocks north of the other College buildings. This department is devoted to practical and scientific education, classical studies being omitted from the course. Instruction is here given with the aid of well-furnished laboratories and ample collections in Chemistry, Mineralogy, Geology, Engineering, and other branches of practical science. A more general course—embracing Mathematical and Natural Science, Literature, Modern Languages, History, and Commercial Law—has recently been established, and meets the demand of the public for a more exclusively practical course of collegiate education. The fine building occupied by the department is a gift of Joseph E. Sheffield, Esq., to Yale College. Several Professorships have been endowed, and the institution liberally supplied with apparatus for instruction. The interior of the building is elegantly finished and painted in fresco.

The rooms of the Engineering section will be found in the main building. The west wing is occupied by the Chemical and Metallurgical laboratories and the east wing as a Museum of Practical Science. The Museum contains full suites of ores of the most important metals, specimens of the rocks in which they are found, models of furnaces, and samples of fluxes and furnace products,—the whole designed to illustrate the production of metals from their ores. The able corps of instructors in this institution, and the high reputation they sustain, not only in the State but throughout the country and even abroad, have already given the Scientific School a national character which no similar educational institution has attained. All the State scholarships are now promptly taken up, and students are coming from all parts of the country to avail themselves of its superior advantages, and the high order of instruction imparted.

THE MEDICAL COLLEGE is located in York street, on the west side, between Chapel and Crown streets.

THE COLLEGE GYMNASIUM is the large brick building in the rear of the Colleges, on Library street. The arrangements for bowling, and other kinds of exercises, are thought to be very superior.

TERMS AND VACATIONS.—The public Commencement is held on the Thursday after the last Wednesday in June. The regular examination for admission

to College, takes place on Monday and Tuesday preceding Commencement, beginning at 9 o'clock A. M., on Monday, and at 8 o'clock A. M., on Tuesday. Candidates for admission assemble at Graduates' Hall. Those who present themselves for examination at a subsequent period, meet on the Tuesday and Wednesday preceding the first College term, which begins seven weeks from Commencement day.

Strangers can obtain admittance to the various public buildings of the College, (except the Library and Art Gallery,) at all hours of the day, by applying at the Treasurer's office, in the Trumbull Gallery.

The Library and Art Gallery, are open daily from 10 o'clock in the morning to 1 o'clock; and from 3 to 5, P. M.

WATERING PLACES AND SUMMER RESORTS.

Savin Rock.

This celebrated watering place, so long and favorably known to the wealth and fashion of the country, and immemorably the resort of sea side pleasure seekers in the sweltering months of July and August, has recently passed into new hands. In the Summer season the horse cars run every fifteen minutes to and from the "Rock," starting from the southeast corner of the Green.

Waverly House.

Half a mile below Savin Rock, is the Waverly House and Grove, which is reached by pedestrians in a pleasant ten minute's walk, or a few minute's drive by a road recently constructed over the dyke from the Rock. The House is kept by Mr. Charles A. King, who provides refreshments of every kind at his hotel. Guests have the use of the bathing houses, the pavilion for dancing, &c. Sailing and fishing parties are accommodated at all times. No place in the vicinity is better provided with conveniences for pleasure parties than Waverly Grove. For the use of the tables, bathing houses, &c., a very small charge is made by the proprietor.

Railroad Grove.

The West Haven Horse Railroad Company are the owners of one of the most delightful and charming groves to be found any where on the line of Long Island Sound. It is situated a short distance north of Savin Rock, and is at present the terminus of the horse railroad. The company have recently purchased a very considerable addition to their former grounds, so that the Grove grounds proper now embrace something over fourteen acres.

The trees are a beautiful growth of oak, hickory and chestnut, and are admirably trimmed for the purpose of shade and adornment. A natural turf covers the ground, which is as smooth as if it had been artificially dressed and rolled for use, with the trees thinned out just enough to make the grove at once a perfect pleasure-ground, and the most desirable of leafy shelters. Within the grove are swings, both circular and upright, flying horses, seats and tables without number, two large pavillions with matched flooring for dancing parties, a saloon, water pipes from which the coolest and purest water can be pumped in different parts of the grove, and other accommodations on a liberal scale for the use of visitors patronizing the Company's cars. In the open grounds fronting the grove, and commanding a fine view of the Sound, is

Grove Palace.

This building is also the property of the Railroad Company, and was designed for the accommodation of parties visiting the Grove by rail. It is a large two-story octagon building, sixty feet in diameter, with a wide flight of front steps ascending upon a platform veranda leading to the second floor, or the grand hall of the Palace. This is a large octagonal room, of the same diameter as the building, with music stand in the center, walls handsomely decorated and painted, and capable of accommodating at least thirty cotillion sets upon the floor at the same time. On the lower floor is a room of the same dimensions as the grand hall, designed as a *salle à manger* for such parties as visit the Grove by cars, the latter providing their own dinner, and the Company furnishing tables and seats without charge. This room, with its tables, will easily seat three hundred persons at a time, and those desiring the use of crockery for the occasion, as well as the use of stoves for cooking, can be accommodated at a mere nominal charge. On this floor is a ladies' dressing room, and all the conveniences appertaining to an establishment of the kind. The railroad management deserves great credit for the extensive arrangements thus made for the almost gratuitous accommodation of the public. The Grove, the Pavillion, the swings, the *salle à manger* and the entire grounds, are at the service of the patrons of the Company, the only charge being the moderate fare of thirty cents for the round trip, tickets purchased before leaving the city. For picnics and family parties there is no place that can surpass for desirableness this grove. Almost adjoining the grounds of the Company is the

Seaview House,

This is now the largest sea-side hotel in the vicinity of New Haven, being one hundred feet front, with handsome verandas facing the water, and capable of accommodating from 75 to 100 guests. The house has been greatly

enlarged and improved during the past winter. It is the property of George R. Kelsey, Esq., of West Haven, and is leased by him to Mr. A. Smith, a popular and successful caterer to seaside pleasure seekers. This house immediately fronts the most desirable bathing grounds on the beach, and extensive accommodations have been made for those who seek the healthful and invigorating exercise of sea-bathing during the summer months. Bathing houses of the most approved description have been constructed on the beach, and bathing dresses for ladies and gentlemen can be had at very reasonable charges. Permanent summer boarders can be accommodated at the Seaview, as well as temporary and transient, and the intention of the proprietor is to make the charges so reasonable as to prolong the stay rather than hasten the departure of guests. The halls and parlors of the hotel are spacious and handsomely furnished, and Mr. Smith, the gentlemanly manager, will serve visitors with every possible attention. The house is rightly named, for it offers as fine a sea view from its ample verandas as can be found at any watering place in the country.

Beach House.

Directly north of the Seaview is the Beach House, which has been recently fitted up for the accommodation of first class boarders and transient guests. The house will accommodate from 40 to 50 guests, who will have every advantage of sea bathing enjoyed by those at the Seaview. The rooms are finely furnished; a heavy double veranda extends around three sides of the house; bathing houses occupy the beach in front; a large inclosed front yard is tastefully ornamented with shrubbery and flowers, and a peculiarly home-like air invests the whole establishment. Charges are moderate for the fare and accommodations furnished, and the house is generally well filled during the watering season.

Hinman House.

A few rods to the north of where the cars strike the line of the beach, is the Hinman House, owned by Mr. Preston Hinman, who knows how to serve up sea food after the most approved fashion of epicurean eating. He does not take boarders, but can accommodate from ten to fifteen transient guests, who may desire to avail themselves of the advantages of his tables. He has a neat and tasteful Pavillion on the beach, hedged in by growing shrubbery, where parties can extemporize a dance, enjoy the innocent amusements of the table, drink in the purest of sea breezes, or going to the bathing houses, take an invigorating tumble in the surf that lashes the very steps of this quiet retreat. The view from the large open balcony of the Hinman House, is equally attractive with that from the other hotels on the beach. Mr. Hinman makes a specialty of serving sea food and summer beverages to the delight of all who visit his popular house.

SUMMER RESORTS ON THE EAST SIDE OF THE HARBOR.

Grove House.

The Grove House is in the immediate vicinity of the Light House, and, indeed, was built in consequence of the prohibition by the Government of the keepers of Light Houses becoming also keepers of houses of public entertainment. The situation is a delightful one, at the entrance of the harbor. The house is surrounded by a beautiful grove; the fishing is abundant. There is a ten-pin alley for the recreation of the guests, about thirty of whom can be accommodated by the proprietor. His charges are moderate for board. The house usually opens on the first of June. Tables are erected in the woods for the convenience of picnic parties, who visit the place in large numbers, and who are expected to pay nothing for the use of the tables and grounds. The place has ample accommodations for horses.

Leaving the city either by the way of Fair Haven, or Tomlinson's Bridge, a charming drive of five or six miles can be found by skirting the harbor on the road which leads to the Light House. The view from the different hills you pass, commands the entire basin in which the town of New Haven lies, as well as a fine water prospect of the Harbor and Sound. About a mile from the city the highest eminence on the left is Fort Wooster, which was built in 1814 by the spontaneous efforts of citizens of New Haven, aided by large companies of men from the neighboring towns, to repel an anticipated attack from the British fleet which held possession of the Sound. The fort was never garrisoned, and indeed, was only designed for use as earthworks in some temporary emergency. The view from Fort Wooster will amply repay the slight labor of the ascent. A hundred or two yards north of the entrance to the fort, lies the ancient Indian burying ground. Nothing remains to indicate the place, except the slight depressions in the turf which mark the graves of the once powerful Quinnipiacks. Bodies have occasionally been dug up by the curious. They are found buried in a reclining position, facing the rising sun, at the depth of only three or four feet from the surface. Wampum, beads and hatchets, are found to have sometimes been buried with the dead. A mile or more below Fort Wooster, on the water, lies Fort Hale, belonging to the United States. During the war of 1812 it was garrisoned by a few men, but it ceased to be regarded as having any value for military purposes many years before the emergencies of the present civil war called the attention of the government to the necessity of providing adequate protection for the most important seaport of Connecticut. The old Fort has been demolished, and strong earthworks have now been completed.

Two or three graceful villa residences on this road will attract the attention of the stranger. The first belongs to the family of the late William K. Townsend, Esq., and is beautifully situated on the left of the road, about two and a half miles from the city. The other two are at Morris' Cove, below Fort Hale. The first belongs to J. Albert Lum, Esq., and the next is the summer residence of C. Maverick Parker, Esq., of New York. The Morris House, at the Cove, is in the habit of receiving a few visitors in the summer months. Accommodations for a limited number can usually be found in several of the other private houses in the vicinity.

Nettleton's Cove House.

On the eastern shore of New Haven harbor is a gracefully curved beach, of two miles or more in length, known as Morris' Cove. No part of the sea shore between New York and Newport is more open to the sea breezes than this beautiful cove, or possesses superior facilities for bathing or boating. The long stretch of white, sandy beach, immediately in front of and contiguous to the house, protected by the curvature of the shore from all danger from breakers or tidal currents, make the Cove House one of the most desirable summer resorts on the Connecticut coast. The House accommodates about seventy-five guests, and has quite a reputation for the excellence of its table. The proprietor prefers to entertain families for the season, and spares no pains to make the Cove House attractive. His address is George D. Nettleton, Fair Haven. His usual charge to his guests is from twelve to fourteen dollars per week. The Cove House is one of the few places on the coast where bathing can be enjoyed at all stages of the tide.

The Light House.

This spot was selected by Government early in the present century, for the erection of a Light House, greatly needed here, as a guide to mariners. The first building, erected in 1804, was a small affair, and gave place, in 1846, to the present edifice, seventy-three feet in height. It is furnished with a stationary light, and the place is also supplied with a fog bell.

The Light House keeper, Mr. Elizur Thompson, is prohibited from keeping a house of public entertainment, but he is obliging enough to part with two or three rooms to visitors, who can provide themselves in other ways with board. It is a retired and pleasant place for two or three small families who need quiet and the benefit of sea air.

South End.

This neck was originally sold for five barrels of pork. It is now the quite resort for picnic parties from city and country. South End can be reached either by passing through East Haven, or by leaving the road to the Light House, where it turns off directly to the water, apparently through a farm yard, and keeping on to the left.

The house is now kept by Mr. Isaac Talmadge, who will receive into his house twenty or twenty-five persons, who do not expect Fifth Avenue accommodations. The fishing here is superior, rock black fish being in great abundance, and the bathing places on the long, fine beach, excellent and safe. It may be well for picnic parties who resort to South End, to know that the use of the grounds, tables, well of water, &c., can hardly compensate the proprietor for his expense and trouble in making it an agreeable resort for pleasure seekers. His charge is \$1 for a table, which will accommodate from twenty to twenty-five persons.

The Shore Line Railway, or a carriage road through the center of East Haven, will carry pleasure seekers to several popular sea side houses of entertainment.

Double Beach.

The house at this headland has lately passed into the hands of Albert Ney, Esq., and is a pleasant resort for citizens of New Haven. Under the superintendence of this gentleman, so long and favorably known to our citizens, it cannot fail to become one of the favorite resorts of pleasure seekers. Its distance is only an easy hour's drive,—seven miles from the city,—or it can be reached by rail, the traveler stopping at Branford Depot, from which a carriage will convey him a distance of two miles, to the Beach. From seventy to seventy-five persons can find accommodations at the house. A bowling alley, trotting course, boating, billiards, fishing, bathing, are and among the means of recreation provided for its guests.

Branford Point

Is an agreeable and well kept house. The proprietor, Mr. D. M. King, has room for one hundred and forty guests. All the conveniences for passing the time pleasantly usually found at such places, are furnished at the Point, and the house may safely be recommended to strangers. For several seasons past the proprietor has run an omnibus daily to and from the city.

Indian Neck.

Two large boarding houses on the Sound are also reached from the Branford depot. Indian Neck, two miles from the depot, has accommodations for forty persons. The proprietor is Mr. Lynde Frisbie.

Montowese House.

This is a new house at Indian Neck, about two miles from the Branford depot, and is kept by Mr. William Bryan, formerly of this city. It is a first class hotel, complete in all its appointments, and will accommodate about two hundred guests. Indian Neck has long been a favorite resort for seaside visitors, and its reputation is not likely to suffer under the management of so popular a caterer as Mr. Bryan.

Pine Orchard.

Four miles from the depot, is a pleasant boarding house, where Mr. Truman Sheldon receives from forty to fifty guests.

Stony Creek.

This quiet resort, twelve miles from New Haven, is only a quarter of a mile from the Stony Creek depot, on the Shore Line Railway. The fishing here is admirable, and the gigantic oysters and clams taken in the vicinity, have made the name of the place famous among those who are careful about the quality of their shell fish. A pleasant bowling alley and billiard room, a comfortable yacht, &c., are provided for the fifty guests, to whom, during the season, the proprietor devotes his attention.

The Brainerd House

Is a very pleasant and popular summer resort, and the first public house that is reached from the Stony Creek depot. The house is in complete order, and contains twenty-five large and airy rooms, with fine views in every direction. The outlook, from its double balconies, in the direction of Thimble Islands, is a magnificent one. Mr. J. W. Brainerd, the popular proprietor, and his excellent lady, give every attention to guests, and while his fare is admirable, his charges are exceedingly reasonable. This house has won, under its present management, an enviable reputation among seaside visitors.

The Indian Point House.

This house, which is kept by Mr. Nathan C. Frink, the proprietor, is one of the most beautifully situated places on the Sound, the Point being an extended curve into the bay, and commanding a fine view of Thimble Islands and the surrounding scenery. The house will accommodate about 50 guests, who can have excellent bathing advantages, and the best of sailing and row boats for excursions to and among the Islands. The fishing grounds here are numerous, and generally reward those seeking piscatorial sports with ample returns for their toil. Many of the islands of this charming and picturesque group, have been occupied by beautiful summer residences,

and a public house has been recently erected on "Pot Island" by Mr. Barnes, for the accommodation of visitors, kept by Mr. Robert Cunningham, and another on "Money Island," by Mr. Charles Lindsley of this city. The Indian Point House is less than half a mile from the depot at Stony Creek, on the Shore Line Railroad, and about twelve miles from New Haven.

Linden Point Cottage.

This is a small but exceedingly neat cottage-house built by Mr. Barnes, the proprietor of the Point, for the accommodation of seaside pleasure-seekers, and is reached from Indian Point by a foot-bridge constructed across the small inlet separating the two Points. It is usually rented during the summer for the use of one or more families, and makes a delightful seaside residence.

Sawsonuck House.

This new House is only a few minutes' walk from the Indian Point House, and is situated on Fine Point, famous in the history of that section for its mammoth oysters. It is reached by a fine carriage road in a three minutes' drive from the depot, and from its elevated grounds and shady groves the visitor can enjoy the best of sea breezes, and the most charming of views. The place is named after the celebrated Indian Chief, Sawsonuck, under whom the famous Montowese held his rule and sway of the tribes found here by the first settlers of Connecticut. It was the great "oyster point" of the Indians, as appears from the depth of oyster shells now underlying the soil, and was visited by them from far and near during the summer months. The House here is kept by Mr. Eben J. Coe, whom everybody knows as "Uncle Eben," and whose tables are supplied with the finest oysters, clams, lobsters and sea fish to be found on the line of the Sound. Mr. Coe also keeps the Springfield House, still nearer the depot, and has rooms for both permanent and transient boarders. His house on the Point commands a splendid view of the Sound and the Thimble Island group. Boats are furnished for fishing and pleasure excursions among the Islands at a reasonable charge. Directly in front of his new house a curious fact is presented for ethnological and antiquarian inquiry, in the discovery of hundreds if not thousands of brick imbedded about three feet deep in the oyster shells which were evidently employed in some sort of structure built there at some period "whereof the memory of man runneth not back to the date." The brick are very hard and of irregular sizes, and instead of mortar, they seem to have been layed in a kind of cement which time has made harder than the brick themselves. There is said to be no tradition in the history of the town accounting for the appearance of these brick, and no clay beds in the vicinity from which they could have been made. It is a

matter of curious inquiry and research therefore, to learn how they originated and by whom they were used. The brick are very dark in color as well as hard, and no two of them seem to be cast in the same mould. They differ not only in length, but in width, thickness and color. It is the opinion of the persons finding them, that the deposit of oyster shells covering the brick is due to the Indians, and not to white men.

Guilford Point.

Fifteen miles from New Haven, is a headland on the Sound, two miles east from Sachem's Head. The Guilford depot of the Shore Line Railway, is little more than half a mile distant, where eight trains stop daily—four from New Haven and four from New London. "The Pavilion" is a very quiet and highly respectable hotel, largely patronized by many families from New York, Hartford, &c., who are in the habit, year after year, of making the Point their summer home. The house is very pleasantly situated on a beautiful lawn, fronting the Sound. It has accommodations for about one hundred guests. The usual conveniences are found here for fishing, bathing, rowing, sailing, bowling, &c. The shell fish taken at the Point are said to be the finest on the Atlantic coast. The proprietor is at all times during the season prepared to entertain parties from New Haven, or elsewhere, with dinner or supper.

DRIVES AROUND NEW HAVEN.

West Haven.

The vicinity of New Haven abounds in fine drives. Beginning on the west side of the harbor, West Haven is a beautiful village, about three miles from the city, very much like an English village in appearance, with its rural green and venerable trees. It is a place of some historic interest, in connection with the landing here of the British troops, under command of Gens. Tryon and Garth, during the revolutionary war. Early on the morning of July 5th, 1779, two English men-of-war, with forty-eight tenders, transports, &c., entered the harbor. At sunrise, about one-half of their land force (1,500 men), under the command of Gen. Garth, landed at Savin Rock beach, the officers making their temporary headquarters at the old Kimberly house (still standing), about half way between West Haven village and the place of landing. The troops were mustered on West Haven Green, and commenced their march for New Haven. Soon after the advance, skirmishing occurred between the enemy and our own people. Adjutant Campbell was killed while ascending Milford Hill. The tradition among the old people of the vicinity is, that he was shot by a lad by the name of Johnson, who, taking an old fashioned musket, and creeping among the whortleberry bushes growing on the side of the hill, lay down to observe what was going on. An officer on horseback soon after appeared ascending the hill, in advance of a small squad of men, when the lad shot at him, and saw him fall from his horse. Campbell was carried into the house of the mother of the boy, where he soon after died of his wound. He is buried in a field, still called "Campbell's Lot," about 300 feet north of the road leading to Milford. A low stone, with the name "CAMPBELL, 1779," in the south-west corner of the field, marks his grave.

West Haven is reached by two roads; one the old road through Allingtown, and the other from the City Point road, across the new bridge, built in 1861 at the mouth of West River. A very pleasant drive is found by crossing the new bridge, passing the West Haven Green, and down to Savin Rock. The return drive to the city by West Bridge, will carry the stranger past the Catholic Cemetery, the State Hospital, St. John's Church, &c.

Westville.

A longer and more retired drive may be found by passing on the West side of the river, through Allingtown to the Derby road, and so into the city; or, it may be protracted by continuing on the road to Westville, over the high ground which commands a fine view of New Haven, passing the residence of Donald G. Mitchell, Esq., late U. S. Consul to Venice, author of "Reveries of a Bachelor," &c. The village of Westville is picturesquely situated at the foot of West Rock, and is a thriving manufacturing community. As you rise the hill from Westville, passing into the city, the eminence on the left indicates the place where entrenchments, traces of which are still visible, were thrown up by the Americans, to resist the advance of Gen. Garth. A spirited contest here ensued, in which numbers were wounded, and a few killed on each side.

Maltby Park.

In 1861 the Fair Haven Water Company was chartered by the General Assembly of the State. The company was soon after duly organized, and after prospecting for some time for the best source of water supply, they finally purchased the large tract of land, now known as "Maltby Park," and commenced the location of their reservoirs therein, at a distance of about two miles from New Haven, and about four from Fair Haven. It was ascertained that the capacity of the streams lying to the north of the Derby road, with the natural advantages of storing the water flowing in them, and the extensive system of water shed naturally tributary thereto, would furnish an ample supply of pure mountain water for all domestic, mechanical, and fire purposes in Fair Haven, with an average head of about two hundred feet, taking the several reservoirs to be constructed. In developing the resources of these streams, the company soon became satisfied that an abundance of water could be procured, not only for the use of Fair Haven, but the entire city of New Haven, by means of these streams and those available even at a higher elevation on West Rock. They accordingly applied to the Legislature for permission to supply New Haven as well as Fair Haven, and finally, in 1867, obtained the right to lay their pipes in any of the streets of New Haven, on condition that the same should be approved by the legal voters residing therein. The charter of the company, as thus amended, was approved by the vote taken, and the mains of the company have been laid into the western part of the city.

Three large reservoirs, or more properly "lakes," have been constructed in Maltby Park, containing about four hundred million gallons of water, and the grounds have been laid out into charming and romantic drives, so that it is really one of the most attractive localities in the vicinity of our city. The company has also constructed a large lake, called "Lake Wintergreen,"

on the northeastern slope of West Rock, covering something over sixty acres, and having an elevation of 240 feet. The capacity of this lake is about four hundred million gallons, and it is estimated that the amount of annual overflow is fully equal to twice the capacity of the lake. With the whole system of reservoirs completed, there will be eight lakes in Maltby Park, with a capacity of about seven hundred million gallons, and four on the West Rock slope with a capacity of over two thousand million gallons of water, and covering altogether, both systems, over four hundred and sixty acres of land. The company are sanguine of their ultimate success, and they have certainly demonstrated that their efforts thus far are anything but utopian.

West Rock

Furnishes the most extensive view to be obtained of New Haven and its vicinity. The City Horse Cars run during the day to Westville bridge, from which point visitors will find it a half hour's walk to the summit of the Rock. About half a mile north, is the celebrated

Judge's Cave.

It consists of huge boulders, apparently thrown together by some convulsion of nature. There were formerly three of the larger stones, each rising to a height of fifteen or twenty feet, with openings a few feet wide between their bases. Some years since the center was struck by lightning, which did considerable damage, and greatly altered the appearance of the Rock. More than two hundred years ago, these narrow fissures were the only home of two men, whose names were once memorable in England,—General Edward Whalley, and General William Goffe, both of whose signatures are affixed to the warrant for the execution of King Charles I. These gentlemen had fled at the Restoration, and made their appearance at New Haven in the Spring of 1661. To protect their friends here from the suspicion of harboring rebels, they betook themselves to this wild retreat, where they were supplied with food by Richard Sperry, the nearest inhabitant to the rock. Tradition says, that they were frightened from the place by the appearance in the night of a panther or catamount.

A pleasant half hour's ramble in a northeasterly direction, leads to a romantic spot, called

Wintergreen Falls.

It is one of the most agreeable places for the visit of pleasure parties, that can be found in the vicinity of New Haven. Those who prefer a carriage to the horse cars can approach nearer the Judge's Cave, by following the road at the foot of the Rock, north to the first dwelling on the right hand side, opposite which is the direct ascent to the Cave. The shortest way

both to Judge's Cave, or Wintergreen Falls, is through Goffe and Crescent streets. To visit the latter place, those not familiar with its situation will find it necessary to make inquiries at some of the dwellings near the foot of the Rock.

The Village of Whitneyville

Is a pleasant place for strangers to visit. Its distance is little more than two miles from the city, and can be reached by two or three different roads,—either by the Hamden road, through Broadway, or by Prospect street, through the woods and past the reservoir, or directly by the Hartford turnpike. The pleasantest of these drives, especially in a warm day, is that through the woods, both from its shadiness, and from the fine views both of East and West Rock, to be seen at intervals on the road. Cars run to the village, from the corner of Church and Chapel sts. every 20 minutes. Excellent boating can be had on the Lake, a short distance from the cars. The village itself was built up by Eli Whitney, Esq., the distinguished inventor of the cotton gin. In the year 1798, Mr. Whitney, having obtained a contract from the United States for the manufacture of ten thousand stand of arms, purchased the site of the place, and erected his factory, together with a number of tenements for workmen. Mr. Whitney died in 1825. The factory, greatly enlarged, is now owned by his son, who continues the manufacture of fire arms.

New Haven Water Company.

Mill river, on which the factory is situated, furnishes New Haven with its water. A new and very substantial dam was built in 1861. The dwellings on the sides of the stream above were removed, and the interval between the high lands on each side the river, flooded. The reservoir for the supply of the city, is situated on the elevated land between Prospect street and the old Hartford Turnpike, about a mile from the dam. The pump by which the water is forced into the reservoir has, until within the last year, been driven by the surplus water of Mill river. To provide against the contingency of drouth and avoid the very large consumption of water occasioned by pumping with water power, steam machinery for that purpose has been introduced on a large scale, the purpose being to use it whenever the waste water is not amply sufficient to drive the pumping machinery. With this economy of supply, it is believed that the Company will be able to meet all the wants of consumers, and that no such contingency will again arise as that happening in the unexampled drouth of 1870. The Company have made a large increase the last year in the extension of their mains and distribution pipes, and have virtually occupied all the more thickly settled por-

tions of the city. Their water is of excellent quality, and the supply has always been ample, except in a few instances of extreme drouth.

This beautiful eminence is reached by a short ride over Neck Bridge, and by an ascent not difficult for carriages. The city, the harbor, the shipping, Long Island Sound, and in the distance Long Island itself, unite to form a singularly beautiful panorama. A house of entertainment can be found on the brow of the rock, with a bowling alley for those who like the amusement. Parties on foot will find the return to the city over the rock, by the way of Whitneyville, to be a pleasant walk. Parties on horseback, or even in carriages, (though the road is not to be commended for vehicles), will find a beautiful view of the face of the Rock, by turning to the left after reaching its foot, and following up the stream either to Potter's Bridge, or to Whitneyville. A pleasant ride entirely round the rock is had by the Whitneyville road to the covered bridge above the dam, and by taking the first road to the right after crossing the stream, and then into the city. Those who are fond of a drive by the water, will find a pleasant one over Neck Bridge to Lewis' Bridge, thence down the Quinnipiack to Fair Haven, and across the railroad to the old ferry point.

Fair Haven.

The village of Fair Haven is well worth a visit, by all who are curious to know how the remotest settlements of the far West are supplied with that standing American luxury,—“Fair Haven Oysters.” It can be reached in a brief time, either by the Horse Railroad, or by private carriages. A short walk from the terminus of the railroad, will lead the stranger to the eminence on the East, which overlooks nearly all of the Quinnipiack Valley. The elegant and commodious residences of Chas. Ives, Esq., and Samuel R. Blatchley, Esq., occupy the two conspicuous sites on either side of the road. To parties in carriages, desirous of finding a charming rural drive, the road running eastward from these mansions, for two or three miles, then southward to East Haven green, can be commended.

CEMETERIES.

Grove Street Cemetery.

The burial ground on Grove street, contains about eighteen acres. It is said to be the first cemetery in the United States that was laid out into family lots. Some who have deserved well of their country and of the world, lie buried in this inclosure. Many more who have been useful in the discharge of local public trusts, also rest here from their labors. Not an inconsiderable degree of taste has been exhibited in a number of its monuments. The place makes no pretensions to the elegance or the expenditure common to the cemeteries of large metropolitan cities; it is only a handsomely kept, well shaded burial ground, where the eye is not offended with an appearance of things not in harmony with the tenderness and reverence due to the dead.

A Chapel has been erected near the entrance, where, in inclement weather, burial services may be held.

Evergreen Cemetery.

The lots in Grove Street Cemetery having become high in price, and difficult to be obtained, a meeting of citizens was held Sept. 15, 1848, to take into consideration the subject of a new Cemetery. An Association was formed by persons present at that meeting, who resolved that its stock should be divided into three hundred shares at ten dollars each. Directors of the Association were elected Oct. 17th, who purchased from Nathan Peck, Esq., Nov. 20, 1848, a tract of land, fronting on West street about 700 feet and extending westerly about 1690 feet to the border of the West River marshes and embracing an area of about 13½ acres. In 1856 a further purchase was made from the same proprietor, of 24 additional acres. The grounds are admirably fitted for burial purposes and capable of being made exceedingly beautiful, both from their position on the banks of West River, and from their diversified surface. The first burial in the Cemetery was made in the year 1848.

Roman Catholic Cemetery.

The Cemetery in Davenport Avenue for the burial of Roman Catholics was opened in the year 1834. After a few years, the grounds were found wholly inadequate to the largely increased number of Catholics in the city, and a purchase of a large and level tract of land on Columbus street, near the West River, was made in 1850, and consecrated by the Bishop of the Diocese. Many handsome monuments have already been erected, and the general appearance of the Cemetery is very creditable to those who have it in charge. An elegant monument was erected a few years since in the south part of the grounds to the memory of the first Bishops of the Hartford Diocese, Bishop Wm. Tyler, who died in 1849, and Bishop B. O'Rielly, who was lost at sea in the year 1856.

Hebrew Cemetery.

A purchase was made by the Jewish residents of the city several years since, of a piece of ground on the north side of Whalley Avenue, opposite Hamilton Park, containing about 4½ acres, which has since been used exclusively by them as a place of burial. Adjoining it on the east, and within the city limits, is the burial place of the inhabitants of Westville. Previous to this, the dead of this village were buried with the other inhabitants of the town.

MANUFACTURERS' TOOLS.

RIVETING MACHINES,

Foot, Hand, Screw and Power Presses,

ROLL AND ROTARY WIRE STRAIGHTENERS,

OF VARIOUS KINDS AND SIZES,

Wire Straightening and Cutting Machines,

(CAN BE USED WITH OR WITHOUT POWER),

BUFFING AND POLISHING STANDS,

GRINDING AND POLISHING STANDS,

Foot Hammers, Giant Iron Cutters, Wire Reels,

ETC., ETC., KEPT CONSTANTLY ON HAND.

Illustrated Catalogues, containing full descriptions, sizes, weights and prices of above Tools, sent on application.

In addition, I build to order *Special and Labor Saving Tools* of all kinds. I have given this branch of Machinery special attention for several years, and during that time have designed and constructed a large list of Tools. Included in this list are machines for the manufacture of *Buckles, Staples, Picture Nails, Hog Rings, Hasps*, and general Wrought Iron and Wire Goods. Machines for *Cold Rolled Points, Reducing Machines, Brass Spring Machines, Paper Box Machines, Croquet Ball Machines, Counter-Sinking Machines*, (to drill or counter-sink several holes close together at one time), *Machines for Cutting Threads*, (on end of wires, such as Picture Nails, etc.), combined *Drilling and Tapping Machines*, etc., etc.

Photographs of Buckle and Staple Machines sent on application.

For prices and other information, address

INSTRUCTIONS TO KEY HOLDERS.

1. On the breaking out of a fire, notice should be immediately communicated to the nearest Alarm Box, Keys of which are always in the hands of the Police, and responsible persons in the vicinity of the Boxes.
2. Key holders, upon the discovery or positive information of a fire, will unlock the box, pull down the slide or hook once, and let go. This gives the desired alarm all over the city, repeating itself five times.
3. All persons giving fire alarms are requested to remain by the box a moment, and if no clicking is heard in the box, pull again; if you still hear no clicking, go to the next nearest box and give the alarm from that.
4. Never signal for a fire seen at a distance. Never touch the hook except to give an alarm of fire. Be sure the box is locked before leaving it. Give an alarm for no cause other than an actual fire. Do not give an alarm for a chimney.
5. Owners and occupants of buildings are

requested to inform themselves of the location of the Signal Boxes near their property, also, the places where the keys are kept. Be sure the alarm is properly given. One single stroke of the Alarm Bell and Engine House Gongs is not given for an alarm of fire.
 6. Alarms will be sounded on the Fire Bells thus: For box 5, five strokes, 1-1-1-1-1, with short intervals, and repeating. For box 32,

three strokes, 1-1-1, a pause, then two strokes, 1-1, a pause, and repeating. Alarms for other numbers are given in a like manner.

7. Ten successive strokes upon the Alarm Bells will be given as a signal for calling out the whole Fire Department.

CAUTION.—Never pull the hook while the Alarm Bells or the Gong in the Box are striking.
 J. M. FAIRCHILD, Sup't.

FIRES, LOSSES AND INSURANCE PAID IN 1874.

France	9c
China, via San Francisco	10c
Japan, via San Francisco	10c
Brazil, by American packet from New York, 23d of each month	15c
Peru	22c
Norway	10c
Cape of Good Hope	28c
Holland	10c
Italy	10c
New Zealand	12c
Russia	11c
Australia	10c

DOMESTIC POSTAGE—2 OUNCES, OR FRACTION.

To any part of the United States	3c
Postal cards	1c
Circulars, unsealed	1c
"Drop" Letters, local delivery	2c
Newspapers, circulars, and other printed matter, books, seeds, cuttings, merchandise, bulbs, roots, and scions, in packages, each ounce or fraction	1c
Newspapers and periodicals, in county from office of publication, to subscribers, free.	

All matter not prepaid at letter rates must be so wrapped that it can be examined with-

out destroying the wrapper, and must not contain any writing whatever, inside or outside, except the address; but samples may be numbered to correspond with the numbers in a descriptive letter, and a business card may be printed, impressed, or pasted (if printed) on wrappers. Liquids, poisons, explosives, and other dangerous matter, are excluded.

REGISTERED LETTERS.

Valuable letters should invariably be taken to the post office and registered. The registration fees are, within the United States, eight cents; to Canada, five cents; to foreign countries, eight to fifteen cents.

RATES FOR MONEY ORDERS.

On orders not exceeding \$10.....	5c
Over \$10 and not exceeding \$20.....	10c
“ 20 “ “ 30.....	15c
“ 30 “ “ 40.....	20c
“ 40 “ “ 50.....	25c

United States Treasury Notes or National Bank Notes only received or paid.

The issue to a single applicant, in one day, of more than three orders, payable at the same office and to the same payee, is positively forbidden.

The applicant must, in all cases, write his own given name and surname in full. When the given name of the payee is known, it should also be stated in full; otherwise, initials may be used. The given names of married women must be stated, and not those of their husbands. For example: Mrs. Mary Brown must not be described as Mrs. William Brown.

Names of parties, places, and streets, as well as numbers and amounts, should be written in full and in the plainest manner possible. A money order must not be made payable to more than one person or firm.

 George W. Hawes, Ph.B., Assistant in Mineralogy, 18 S. H.
 Charles J. Morse, Ph. B., Assistant in Surveying and Field Engineering, 42 York Sq. Place.
 Claudius V. Pendleton, Ph. B., Assistant in Mechanical Drawing, 43 S. N. H.
 Samuel T. Tyson, Assistant in Analytical Chemistry, 20 S. H.
 Samuel F. Clark, Assistant in Zoology, 58 N. S. H.
 Russell H. Chittenden, Assistant in Physiological Chemistry, 13 S. H., 23 Humphrey st.

Collegiate and Commercial Institute,

Nos. 15 and 17 Wooster Place.

The regular course in the department preparatory to Yale College, occupies three years; but full opportunity is allowed to those who can prepare more rapidly. There are special courses arranged for those who are to enter the Scientific Schools, and for those who are to follow business pursuits. Parents will find, in the instruction given in Military Drilling, Gymnastics, Swimming, etc., and in the ample grounds for out-door games, under careful supervision, just the advantages for physical training and vigor, which boys in cities need. The Boarding Department is designed for pupils who do not reside with near relatives in New Haven, and to secure to them those family advantages, and that paternal care and moral and religious discipline which their age so obviously demands.

OFFICERS AND TEACHERS.

- WILLIAM H. RUSSELL, A. M., Principal and Instructor in History, Ethics Latin and Mental Science.
 Rev. J. H. Bradford, Vice-Principal.
 George H. Larned, Secretary, and Instructor in English and Mathematics.
 Major William H. Stowe, Teacher in English, Mathematics, Book-keeping, Geography and Military Drilling.
 Prof. François Turner De Bussy, Teacher in Modern Languages.
 Rev. C. H. Seibke, Teacher in German.
 Talcott H. Russell, A. M., Teacher in Commercial Law.
 J. W. Wescott, A. B., Teacher in History and Elocution.
 Thomas H. Russell, M. D., Teacher in Mathematics and Natural Science.
 George L. Fox, A. B., Teacher in Greek and Latin.
 C. P. Howland, Teacher in Latin, Mathematics and English Language.
 Frank J. Lowe, Teacher in English and Mathematics.
 John R. Paddock, Teacher in English and Mathematics.
 Frank C. Lyman, Teacher in English Composition.
 Edward H. Russell, Assistant Teacher.
 Prof. Louis Bail, Teacher in Drawing.
 Frank A. Cargill, Teacher in Penmanship.
 ——— Teacher in Gymnastics.

THE HOME SCHOOL,

For Boys Preparing for Yale College,

Combines the advantages of discipline in the large classes of the HOPKINS GRAMMAR SCHOOL, with personal care and assistance to promote health, character and scholarship.

WILLIAM A. MAGILL, A. M., Principal,
 Nos. 126 and 128 High street, cor. of Wall street.

National College of Business,

NEW INSURANCE BUILDING,

364 Chapl Street.

OBJECT AND DESIGN OF THE INSTITUTION.

The design in the establishment of this College was to supply a long felt want of the community for an institution of practical instruction, that shall keep pace with our wonderful growth as a commercial people, and that shall thoroughly fit the merchant, banker, and accountant, to worthily fill their respective stations. A great demand has long existed for a LEADING institution in this department of education.

The course of education and business training is very thorough and comprehensive, and is designed to qualify young men directly for the various duties and responsibilities which a business life engenders.

The academic branches are taken up with thoroughness, and in a very practical manner, the recitations consisting, for the greater part, of lecture and oral instruction; all difficult points are illustrated with apparatus, and all the principles learned are applied in the PRACTICAL DEPARTMENT of the College.

The NATIONAL COLLEGE, as now organized and conducted, consists of the following departments of instruction, each separate and distinct, and in charge of thoroughly competent instructors:

Senior Practical Department,

Department of Theoretical Training,

Penmanship Department,

English Department.

Department of Telegraphy,

Department of Modern Languages,
Commercial Law.

Circulars, containing full information as to terms, conditions of entrance, &c., can be had on application, personally or by mail.

CHARLES R. WELLS, President.

HENRY L. HILL, Secretary.

Hopkins Grammar School,

Corner High and Wall Streets.

Trustees—Henry White; Theodore D. Woolsey; Eli Whitney Blake; Thomas A. Thacher, Professor of Latin in Yale College; Henry C. Kingsley, Treasurer of Yale College; Alexander C. Twining; Simeon E. Baldwin.

The school was established about the year 1660.

Its chief design is to prepare boys and young men for the Classical and Scientific Departments of Yale College.

For those living in New Haven and vicinity the best time of entering is at the age of eleven or twelve.

The number of teachers is large. The course of study embraces not only the Latin, Greek and Mathematics required for admission to College, but all the common English branches; and in both of these departments the instruction is most thorough.

The terms and vacations are the same as those of the College.

Further information concerning the school can be gained by calling for catalogues, gratis, at the bookstores of Thomas H. Pease and Judd & White, or by applying to

WILLIAM L. CUSHING, B. A., Rector.

PRIVATE SCHOOLS.

Miss E. P. Hall, 95 Orange.

Mary A. E. Bradley, 81 Wall street.

Mrs. Sarah C. Cady, 99 Howe street.

Misses Bangs, 136 Sherman ave.

St. Mary's Academy—Teachers, the Sisters of Mercy, Church-st.

Young Ladies' and Misses' School, 530 Chapel Street. Eliza H. Daggett.

Young Ladies' Boarding and Day School, No. 747 Chapel street, Mrs. Lydia Black Newcomb, Principal.

Young Ladies Boarding and Day School, No. 57 Elm street. Misses Edwards, Principals.

Trinity Parish School, 165 George street.

Mrs. J. M. Pierpont, 208 Orange street.

Mrs. Sarah Wilson, 221 York street.

Keble School, Hoadley Building.

German and English School, 193 Wooster street. Herman Trisch, Principal.

PUBLIC SCHOOLS.

BOUNDS OF THE CITY SCHOOL DISTRICT.

WASHINGTON, beginning at West Bridge, includes both sides of Congress avenue to Meadow street, neither side of Meadow street to the water, and all streets within the lines thus indicated.

WEBSTER, beginning at the Derby Turnpike Bridge, includes both sides of Derby avenue to George street, both sides of George to Howe, both sides of Howe to Chapel street, neither side of Chapel to York, both sides of York to Elm, neither side of Elm to Church, neither side of Church to Chapel, neither side of Chapel to State, neither side of State to Water, both sides of Water to Meadow, both sides of Meadow to Congress avenue, and neither side of Congress avenue to West Bridge, with all the streets within the lines thus indicated.

DWIGHT, beginning at Derby Turnpike Bridge, includes neither side of Derby avenue to George street, neither side of George to Howe, neither side of Howe to Chapel, both sides of Chapel to York, neither side of York to Elm, both sides of Elm to College, neither side of College to Prospect, both sides of Prospect to the Hamden Line, with all the streets within the lines thus indicated.

SKINNER, beginning at the junction of Prospect street with the Hamden Line, includes neither side of Prospect street to Grove, neither side of Grove to State, thence in the shortest straight line to the New Haven and Hartford Railroad, thence along that road to Mill River, with all the streets within the lines thus indicated.

WOOSTER, beginning at the corner of State and Water streets, includes both sides of State to Chapel, neither side of Chapel to Franklin, neither side of Franklin to Grand, neither side of Grand to Hamilton, neither side of Hamilton to the railroad, which separates it from the Skinner district, thence to Mill River, and all streets within the boundaries so indicated.

EATON, beginning at the south-west corner of College and Elm streets, includes both sides of College to Grove street, both sides of Grove to State, thence in a straight line to the New Haven and Hartford railroad, which separates it from the Skinner district, thence to Hamilton street, includes both sides of Hamilton to Grand, both sides of Grand to Franklin, both sides of Franklin to Chapel, both sides of Chapel to Church, both sides of Church to Elm, both sides of Elm to College, and all streets within the lines thus indicated.

WOOLSEY, includes all that portion of the city which lies east of Mill River.

BOARD OF EDUCATION.

Office, High School Building, Orange, cor. Wall.
Terms expire.

Harmanus M. Welch, 680 Chapel street, 1877
Maier Zunder, 212 Orange street, 1877
Samuel E. Merwin, Jr., 240 Orange st. 1877
Amos F. Barnes, 260 Orange street. 1875
Charles Atwater, 15 Elm Street, 1875
Samuel Hemingway, 37 East Pearl st. 1875
John E. Earle, 214 Orchard Street. 1876
William C. Robinson, 76 Olive street, 1876
Nathan T. Bushnell, 17 College street, 1876

Ariel Parish, *Superintendent of Public Schools*, 46 College St.

Horace Day, *Secretary of the Board*, 10 College Street.

Harmanus M. Welch, *Treasurer*, First National Bank.

William Hillhouse, *Collector*, 8 City Hall.

COMMITTEES OF THE BOARD.

Committee on Finance—H. M. Welch, Chas. Atwater, Samuel E. Merwin, Jr.

On Schools—John E. Earle, William C. Robinson, Maier Zunder.

On School Buildings—Amos F. Barnes, Samuel Hemingway, Nathan T. Bushnell.

Regular Meetings of the Board of Education are held at the High School Building, on the first and third Friday evenings of each month.

Office Hours—Of the Superintendent—From 8½ to 9 o'clock, A. M., and 12½ to 1 o'clock, P. M.

Of the Secretary—From 8½ to 9½ o'clock A. M., 4 to 5 o'clock P. M., and 7 to 8 o'clock on Monday, Wednesday and Friday evenings, on all school days.

Admission of Scholars—The Public Schools are free only to children whose parents or guardians reside in the District.

The regular time for the admission of Scholars into the Public Schools is at the beginning of the School year, in May.

After the beginning of the school year, any applicants for admission may apply to the Secretary of the Board of Education, who will give a card of admission to some particular school; and in case there is no vacancy in the proper grade of that school, the applicant's name will be entered by the Principal upon a Register of applications, and the scholars whose names are thus recorded will be entitled to seats, (as vacancies occur,) according to the order of time in which they applied.

Inquiries about the Public Schools may be made every morning from 8¼ to 9½ o'clock, 12½ to 1, 4 to 5 o'clock, and 7 to 8 P. M., Monday, Wednesday and Friday evenings, on

all days except Saturdays and during vacations, at the office of the Board of Education.

EXTRACTS FROM CITY BY-LAWS.

PUBLIC CONVEYANCES.

No hack or other vehicle, whether on wheels or runners, drawn by animal power, shall be used or employed to convey any person from place to place in said city, for hire, and no baggage wagon, express wagon, cart, dray, truck or other vehicle, whether on wheel- or runners, shall be used or employed to convey any baggage, goods, wares, merchandise, freight or materials from place to place in said city, for hire, unless in accordance with these ordinances, nor unless under authority of, and pursuant to a license, for such vehicle, and for each driver thereof, as provided in this ordinance, and in the ordinance concerning licenses and permits.

Every such vehicle shall have the number of such license in figures in the Arabic character, of not less than one inch in size, with light figures on a dark ground, or dark figures on a light ground, at all times fastened or painted on the outside and on each side of the vehicle, in a manner approved by chief of police, and so as to be distinctly seen and easily read by passengers in the street.

Every vehicle for carrying passengers, for hire, shall at all times have conspicuously posted on the inside, in a manner approved by said chief, and so as to be easily seen and read by passengers, a card containing the name of the owner, the number of the license, and a tariff of the rates of such vehicle.

Every such driver shall at all times when employed, or seeking employment for such vehicle, wear the number of his license conspicuously on his person, in a manner directed by said chief; and he shall give, to any one requiring it, his name and number, and the name and residence of the owner of the vehicle which he drives, and exhibit a tariff of fares prescribed therefor.

Keystone Portable Forge Co.,

MANUFACTURERS OF THE

KEYSTONE PATENT FORGES, FAN BLAST,

—COMPRISING—

FORTY-SIX STANDARD STYLES,
FOR HAND OR POWER,

For every class of work, from the lightest to the heaviest.

More than Four Thousand in Use.

The largest and most effective variety of Fan Blast Forges in the world.

Why a Portable Forge is better than a Stationary One :

- 1st. The Keystone Forges will do all the work that can be done on Stationary Forges, from $\frac{1}{4}$ inch up to 8 inch iron.
 - 2d. They occupy much less space.
 - 3d. They can be moved entire at a moment's notice. The value of this feature is appreciated in case of fire in a shop, and when establishing new shops, or re-arranging old ones.
 - 4th. They cost no more in general than the old fashioned brick Forges.
 - 5th. They give a perfectly steady blast, whether worked slow or fast.
 - 6th. They are easier to work. The cranks and levers on our Forges require very little power. A small boy can work any of our Forges with ease all day.
 - 7th. They are more durable than bellows. The average life of a bellows is five to six years, and it is liable to frequent damage from burning, rotting, or other injury to the leather. Repairs to a bellows are expensive, frequently amounting to as much as the original cost. Our Fan Blowers should last from five to ten years with but little repair.
 - 8th. Our smaller Forges cost less than, and our largest Forges about the same, as brick Forges and Bellows for the same class of work.
- Many more reasons could be given, but the space forbids. Call and examine them. Descriptive Catalogue and Price List furnished on application
